

## Silver Oak Entry Door Replacement Requirements

Owners may replace their entry door system, providing the following criteria are met and an ARC form is filed and approved before the replacement system is installed.

- A building permit is required to ensure compliance with Florida Building codes
- The rough opening size **must** remain the same
- Must be a **single 8-foot tall** door and can be up to 3 feet wide
- The width of the sidelights is sized depending on the door width to fit the opening
- The color of the door system **must** be either **white or the base color** of the home
- The door may be solid or have glass
- **Glass may not be colored**
- The circle top above the door **must** be kept
